COBA REBORN

SACRED SERPENTS

Since the discovery of the snake temple, Coba, rumors have been heard of another temple in the deep jungles of Indonesia. Locals warn that the snakes at this temple have mystical, immortal powers from eating the rare orchids that grow in the area.

Coba Reborn is a venomous cluster slot. It comes with rolling symbols, cluster-generating snakes, multiplier wilds, and orchid power-ups. The game has 4 feature levels, packing a potential win of 25,000x bet.

X-iter™

500x	100x	25x	10x	BOOSTED CHANCE 2x

X-iter™ allows players to jump straight into the action with 5 different game modes ranging from a 2x bet boosting the chance to reach the features, to a 500x bet final stage feature releasing 6 snakes simultaneously!

SNAKES

When snakes eat their current selected symbol, wilds and orchids to grow, create larger clusters and to survive another avalanche drop.

BLOOD ORCHID

Spawns snakes with other orchids or from being eaten.

HYDRA ORCHID

Causes a new snake to grow from the neck of the snake eating the orchid.

WILD MULTIPLIER

Snakes crossing each other's paths creates a x2 multiplier wild at the crossing. Additional crossings double the multiplier. Multiplier wilds multiply each other within the same cluster.

OUROBOROS ORCHID

When eaten, the snake is able to bite and cross itself, creating a multiplier wild.

REBIRTH ORCHID

Snakes eating this orchid are revived on death.

SNAKE METER

Each winning symbol increases the snake meter. Fill it halfway and get a random number of scattered wilds. A full meter level up and award snakes!

Recommended size and ratio for desktop browsers

For the optimal gaming experience, ELK Studios recommend launching the game in 1600x900 resolution. If scaling is required, use 16:9 ratio.

Technology

ELK games uses state of the art web technologies including support for canvas and WebGL. The client detects the capabilities of the device regardless if the player is running on a desktop, tablet or mobile.

The game client will then optimize the gaming experience based on those parameters.

ELK Studios

We build great casino games

Since founded in 2013, ELK Studios has pushed boundaries in the online casino industry. From groundbreaking mathematics to astonishing artwork, ELK takes pride in developing entertaining mobile first content that maximizes the experience for players around the world.

Our games are developed and complied by our inhouse studio in Sweden, and we use well known test centers such as Trisigma and Gaming Laboratories International to certify them. Once released, all games are operated by partners and operators who hold license in each market.
