

GALACTIC TUNES

For centuries, inhabitants on Jellon have used Porta-loos as entry points to earth. Fascinated by human life, they gather and master any item of importance, and use them as part of their vibrant rituals.

J-POP is a 6 reel, 4 rows popping slot. It comes with big symbols, walking wilds, symbol upgrades, expanding rows, a bonus game, and a super bonus game - all packed into a potential of 25,000x bet.

X-iter™

X-iter™ allows players to jump straight into the action with 5 different game modes ranging from a 3x bet with more than three times the chance to trigger the Bonus, to a 500x bet Super Bonus with a guaranteed Walking Wild.

Big Drop

Triggers a drop of big symbols that crushes all 1x1 payout symbols and then becomes a Wild symbol.

Walking Wild

The walking wild randomly walks 1 step to any adjacent symbol position and increases its multiplier value by x1.

Grid Flip

Flips the entire grid horizontally and then becomes a Wild symbol.

Wild Box

The Wild Box symbol places a random number of Wilds on the grid.

3 or more bonus symbols trigger the bonus game with safety levels up to a maximum of 8 rows and 262 144 ways to win. Free drops can be retriggered.

Recommended size and ratio for desktop browsers

For the optimal gaming experience, ELK Studios recommend launching the game in 1600x900 resolution. If scaling is required, use 16:9 ratio.

Technology

ELK games uses state of the art web technologies including support for canvas and WebGL. The client detects the capabilities of the device regardless if the player is running on a desktop, tablet or mobile.

The game client will then optimize the gaming experience based on those parameters.

ELK Studios

We build great casino games

Since founded in 2013, ELK Studios has pushed boundaries in the online casino industry. From groundbreaking mathematics to astonishing artwork, ELK takes pride in developing entertaining mobile first content that maximizes the experience for players around the world.

Our games are developed and compiled by our inhouse studio in Sweden, and we use well known test centers such as Trisigma and Gaming Laboratories International to certify them. Once released, all games are operated by partners and operators who hold license in each market.
