

## WHO KILLED JFK?

Deep in the Nevada desert, as far off the grid as humanly possible, oddballs Jeff & Scully spend their days solving history's biggest questions. Is JFK alive? Why fake the moon landing? Who really built the pyramids?

Jeff & Scully is a 7 reel, 7 rows conspirational slot. It introduces the unique Area Win mechanic and comes with multipliers, sticky redrops, symbol swaps, instant pay coins, wilds, a bonus game, and a super bonus game - all packed into a potential of 10,000x bet.

**X-iter™**

X-iter™ allows players to jump straight into the action with 5 different game modes ranging from a 3x bet with more than three times the chance to trigger the Bonus, to a 500x bet Super Bonus where both multipliers and instant pay symbols are progressive and sticky.

## AREA WIN

4 matching symbols in the corners of a rectangular area trigger a win. The bigger the area, the bigger the win. Multiplier symbols within the area multiply both the symbol win and the instant pay symbols within the area.

## JEFF

A Jeff area win triggers the Jeff feature, which pays an area win for each symbol within the area.

## SCULLY

A Scully area win triggers the Scully feature that swaps symbols to create additional area wins.

## BONUS GAME

3 Bonus symbols collected from winning areas trigger the bonus game, where multipliers and instant pay coins remain sticky throughout the bonus.

4 bonus symbols trigger the super bonus game where the sticky multipliers and instant pay symbols increase in value for every new free drop.

## Recommended size and ratio for desktop browsers

For the optimal gaming experience, ELK Studios recommend launching the game in 1600x900 resolution. If scaling is required, use 16:9 ratio.

## Technology

ELK games uses state of the art web technologies including support for canvas and WebGL. The client detects the capabilities of the device regardless if the player is running on a desktop, tablet or mobile.

The game client will then optimize the gaming experience based on those parameters.
